

Workshop on Embedded System Programming (WESP2011)

Mr. M. G. Gireeshan, embedded system designer has inaugurated the WESP 2011 – a five day workshop - organised by CERD Satellite Centre, Government Engineering College Wayanad. Dr. Thajudin Ahamed V. I., HOD ECE has welcomed the gathering. Smt. Bindima T. coordinator gave a brief introduction on the objectives of WESP2011. Dr. Anil B., Principal, GECW presided the inaugural function. He also gave a brief introduction of objectives of Centre for Engineering Research and Development (CERD). In his inaugural speech, Dr. Gireesan told that embedded systems has tremendous growth in recent years, and still retains the complexity. This workshop is an attempt to introduce and familiarise the basics of embedded systems to the beginners, and to build confidence among faculty and students to take up project in this area. Prof. T. N. Ravi Syndicate member Kannur University has felicitated the programme. Smt. N. Sindhu has proposed the vote of Thanks.

Prof. Gireeshan has conducted an interactive session focusing on the development of projects based embedded systems using PIC microcontrollers. About 70 participants are attending programme.
